3 of 3 review helpful This book deserves 10 stars By Jennifer Shelby This book was eye opening I found peace with something I have struggled with for the past 5 years I found myself being more honest with myself and God than I ever had before I questioned every step and did not have faith in the plan In 3 questions my answer was there black and white the WORD I have read these passages before but never did I real I was lured into believing that success was about money power fame and pleasure If those things defined success then I should have opted for failure My true success in life came when my focus was on doing what God wanted me to do and investing in the life of others My only regret is that I wasted so many years chasing the wind when I should have been all in from the start Taylor Bellows The death of Taylor Bellows one of the wealthiest men in the world devast About the Author Tony Bridwell is an international speaker consultant and coach making a difference at some of the world's largest organizations and churches When Bridwell is not traveling the globe he turns his efforts toward home by teaching a Bible Study
