1 of 1 review helpful Captivating and Inspiring By darshbagel This book provides an insightful narrative of self exploration and self actualization I don t typically read books because I quickly lose interest but this was written in a very direct fashion allowing for an easy but titillating read I was completely immersed and totally forgot about the loads of homework that I had to do I would recommend thi This story of initiation is informed by esoteric ideas of rites of passage applied in the modern context It is a vision quest that resonates with the social issues of our time and especially speaks to young adults and late adolescents though it can be reflective of anyone s experience At age 21 Jason is unfulfilled lacking direction and coming out of a bitter breakup with his girlfriend He resolves to make a fresh start and a serendipitous encounter with Reading this book makes one want to be oneself yet in a world that attempts to turn us all into obedient consumers of superficial news bytes politicians rhetoric claims which we know to be untrue and so much more nbsp nbsp mdash Jaan Valsiner
